

## Host Organization Information

### Orpyx Analytics and Scientific Insights Summit (OASIS 2026)

This document is provided by Orpyx Medical Technologies Inc. to assist invited delegates with completing VA Form 0893 for the acceptance of gift travel for attendance at the Orpyx Analytics and Scientific Insights Summit (OASIS). OASIS 2026 will take place March 26, 2026 in Calgary, Alberta, Canada and March 27, 2026 in Banff, Alberta, Canada.

The information below is intended to support form completion. It does not replace any required travel authorizations or approvals under applicable VA or federal travel regulations.

OASIS 2026 Delegate Invitation Package includes:

1. Letter of Invitation to OASIS 2026 (sent electronically to invited conference delegates)
2. [OASIS website](#), which contains:
  - [Online Registration](#)
  - Expense information
    - [OASIS 2026 Travel Expense Reimbursement Guide](#) – outlines responsibilities for expenses
  - Required agreements (for compliance and participation):
    - [Attendee Agreement](#) or [Presenter Agreement](#) (required under Physician Payment Sunshine Act (PPSA))
    - [Conference Media Release Agreement](#) (required for conference photography, videography, and media)
    - [Orpyx Visitor Non-Disclosure Agreement](#) (required for all visitors to Orpyx headquarters)
  - [OASIS 2026 File Uploads](#) - due January 31, 2026:
    - Headshot (JPEG, PNG, or TIFF, minimum 300 DPI)
    - Brief biography (up to 250 words)
    - [Expense Reimbursement Form](#) (required for expense reimbursement after the conference)

PURPOSE OF EVENT *(Include 1, How this event will further VA's interests, and 2, how this event is part of your official duties.)*

OASIS is two-day summit will unite leading clinicians from across North America to ignite new ideas, share real-world insights, and shape the future of preventative limb care through continuous foot monitoring. Educational objectives include:

- 1. Advance Foundational Science in Digital Monitoring of the Diabetic Foot.** To critically examine the biomechanical, physiological, and behavioral signals measurable through continuous monitoring — including plantar pressure, shear forces, temperature, physical activity, and adherence — and to explore how emerging evidence can inform risk stratification and translation of real-world data into clinical decision pathways for prevention and early intervention.
- 2. Build Multidisciplinary Expertise for Next Generation Limb Preservation.** To bring together podiatrists, vascular surgeons, wound-care specialists, rehabilitation clinicians, engineers, data scientists, innovators, and policymakers in interactive sessions that strengthen cross-disciplinary expertise and accelerate the integration of digital monitoring technologies into complex care systems.
- 3. Examine Ways to Transform Health-System Adoption and Equity in Diabetic Foot Care.** To examine policy, reimbursement, and implementation barriers that determine the adoption of digital monitoring, promote equitable access to innovations such as sensorized insoles and remote patient pedal monitoring (RPPM), and identify scalable system-level models to reduce amputation disparities across populations.

OTHER ENTITIES ATTENDING OR PARTICIPATING

Not applicable

ROLE OF EMPLOYEE-TRAVELER *(e.g. attendee, speaker, trainer, etc.)*

One of: Attendee, Keynote Speaker, Presenter, Panelist
